

Benefits

Why go to a Mortgage Broker instead of your local bank? There are several advantages. Your bank will sign you up for whatever they are offering at the time. But a Mortgage Broker has access to more lenders, more loan programs, and different types of loans. A Broker will act as your agent and shop around on your behalf, to find you the best possible deal, and give you a more efficient, personalized customer service. You are not just a number, and you won't be passed on from department to department. Generally, you will only deal with two people during the entire process. At Shadowood, we are mortgage planners and we value each client as a relationship not a transaction! We have a staff that has worked for the big banks and lenders and understands that each client has different needs at different times. We pride ourselves in maintaining a high trust relationship with each client that will last a life time. Request a Free Consultation or Apply Now
